Lady Tweedmouth and her son, Lieut. Alastair Buchan, left Neurological Institute today for the Governor-General's private residence.

Two emergency operations were performed yesterday, the first at Ottawa, and the second at a four-hour, after a two and a half hour first ride here.

The hospital announced shortly after midnight that the operation relieved a convulsed hemorrhage suffered in a fall in his bathroom had produced a "light but definite improvement" in the Governor-General's condition, although it was still critical.

SACRIFICES BY FARMERS NEED IN PRESENT WAR

By JAMES N. CRANDALL

British United Press Staff Correspondent

TORONTO, Feb. 10.—Farmers must be prepared to make sacrifices during the war and to aid in the post-war settlement, Dr. E. S. Archibald told the Ontario Cattle and Horse Association yesterday.

Dr. Archibald, director of the Dominion Experimental Farms at Ottawa, and a member of the Agricultural Supply Board, said that Britain wants bacon or cheese, even if the margin of profit disappears, because Canada's duty to supply it.

"Not only are we employing on a considerable scale Canadian aircraft firms in the production of different types of craft for the R. A. F., but the group organization, established by a mission to Canada in 1938, now has been widely extended and entrusted with further orders valued roughly at \$24,000,000 covering the production of the latest type of aircraft," he said.

"I reviewed all phases of the Allied war effort, saying never before in history had Great Britain and France been so closely united and so confident."

"Only command on land, close cooperation at sea and in the air, close economic and financial collaboration—all these have been welded into a mighty weapon for the defense of liberty," he said.

PRaises R.A.F.
Praising the Royal Air Force, Kingsley Wood said: "It is not surprising to us that part of our air force which has been engaged in pitched battles has shot down more enemy craft than we have lost. The toll, in fact, of our airmen, has often been much heavier than official reports reveal."

He said the British fighters were among the "finest airmen in the world."

He predicted that the German "airman's understanding" would be broken "just as soon as it suits Germany to break it."

Denounced alleged German air-

HUGE AIRPLANE ORDER PLACED IN DOMINION

British Government Awards \$30,000,000 Contract For Aircraft

OTTAWA, Feb. 10.—The British government has placed a new order for military planes, valued at about \$30,000,000 with Canadian Associated Aircraft, it was announced today from the British High Commission in Ottawa.

The announcement confirmed an official report earlier this week that additional orders would be given to the company operating the factory to manufacture planes for Britain.

The six firms that make up Canadian Associated Aircraft are: the Canadian Aircraft Co., Ltd., Montreal, with headquarters in Montreal, are Ottawa Car and Aircraft Limited, Canadian Car and Foundry Company of Fort William, Fleet Aircraft of Fort Erie, Ont., National Steel Car Company of Toronto, De Havilland Company of Toronto and Fairchild Company of Montreal.

The type of aircraft to be manufactured in this new order is believed to be the powerful bi-engine bomber and possibly after the companies will produce the four-engine bomber which is believed to be the most modern in the world.

Assembly plants are being established at St. Hubert airport, near Montreal, and at Malton airport, near Toronto to handle the order.

The British government plans to use the company. The six companies in the aircraft manufacturing pool will manufacture various parts and the planes will be assembled in the Montreal and Toronto plants.

Mackenzie Bares Accounting of National Defence

Former Defence Minister Tells of Events Leading Up to War—Vancouver Honors Him With Re-Nomination

British United Press. Exclusive to The Edmonton Bulletin.

VANCOUVER, B.C., Feb. 10.—Addressing the nomination convention at Vancouver Centre last night, Ian Mackenzie, minister of pensions and national health, said that the government of Prime Minister Mackenzie King brought Canada untidily into war, and devoted itself to unrelenting zeal in the organization and prosecution of war.

He defended the King government in calling a general election, saying that "Abraham Lincoln called an election in the middle of the civil war."

VANCOUVER, Feb. 10.—With an accounting of his stewardship of the national defence ministry and a story of the government's efforts to build up Canada's defences in the last five years, Hon. Ian Mackenzie, minister of pensions, last night launched his campaign for re-election in the forthcoming Dominion elections.

The British Columbia cabinet minister, shifted from the defence to the pensioning ministry in the cabinet shuffle shortly after the outbreak of war, was nominated by a Liberal convention to seek re-election in Vancouver Centre.

In a lengthy address which followed his nomination, Mr. Mackenzie replied to his home-town for the first time to a series of criticisms made in eastern Canada by his activities as defence minister. The criticisms, he said, were based "upon half truths."

BREN GU CONTRACT

The former defence minister yesterday defended the government's Bren gun contract with the John Inglis Company, Toronto, which was drawn up in 1938, the company agreeing to manufacture 7,000 machine guns for the Canadian army and 5,000 for the British.

Although the company had been criticized as "inefficient" in charge before public investigations into the contract, he said, it has "been proved."

Manion Campaign Meeting Critical Reception In East

By GRANT DEXTER

OTTAWA, Feb. 10.—The Manion campaign, launched at Brockville on Thursday night, is meeting with a very critical reception in the metropolitan newspapers in central Canada. Apart from the Toronto Telegram, Mr. Manion receives no commendation.

The Ottawa Journal, which is the strongest Conservative party paper in Ontario, has not yet commented on the speech. There has been no editorial reference whatever in the Journal to the opening speech of the party leader. Although this newspaper maintains its critical attitude towards the Liberal party.

The Globe and Mail is dissatisfied with Mr. Manion's speech. It says him that he must be "more specific" and that failure to be so will prejudice the whole idea of national government. The Globe and Mail gives praise to both Hon. Norman Rogers and Hon. J. L. Ralston.

Mackenzie Defends National Policy on War Preparations

Continued from Page One

During the past several weeks Mackenzie said the department had found it impossible to provide for clothing and boots before 1939 in case of expenditures on aircraft and naval vessels. Mackenzie said the department had found it impossible to provide for clothing and boots before 1939 in case of expenditures on aircraft and naval vessels. Mackenzie said the department had found it impossible to provide for clothing and boots before 1939 in case of expenditures on aircraft and naval vessels.

Opposition members in the committee objected to reporting, he said, on the grounds the committee did not have sufficient evidence. The Royal Commission reported in its findings, however, that all documents had been produced and that all the facts had been brought out before the commission.

Mr. Mackenzie said, "only one conclusion is possible" in regard to the failure of the house committee to report. "That the opposition members did not wish to make a report, unless they could make a report condemning the government. After nine months of inquiry, they had not succeeded in finding any report to justify such a report."

Replying to Conservative charges of "lack of preparedness" at the outbreak of war, Mr. Mackenzie compared the state of defence last September with conditions prevailing in 1935 at conclusion of the Bennett administration which had faced several crises, including the Manchurian and Ethiopian wars, which brought the world to the very brink of war.

NO MODERN PLANES
In 1935, he charged, the air force had no modern service planes, no bombs and no service ammunition. The navy had only two modern vessels. The magazines and shore equipment of the navy were in very dilapidated state. The militia was completely lacking in modern weapons and mechanical equipment. Our fortification works were not only inadequate, but they had been almost unusable.

The newly formed Liberal government turned its first attention in regard to defence to the air force. Previously all planes required had been purchased in Great Britain, the entire capacity of the British aircraft industry at that time was required for the Royal Air Force.

Purchase of planes in the United States was undesirable because the neutrality policy of that country might "cut off this source of supply when most needed in time of war."

"Our need for not merely an immediate supply of planes," he said, "but a permanent source of supply which could be relied upon in an emergency."

The government, despite the lack of plants, trained engineers and skilled workmen, decided to sponsor an aircraft industry in Canada.

CREATION OF INDUSTRY
Diminishing allegations of political favoritism in connection with the building up of the industry as "sheer nonsense," he said.

"Our problem was not the mere production of aircraft. It was the creation of an industry. We always knew that the process would be long, difficult and costly."

Expensive delays were encountered when it was found the first plans and specifications sent out by the British government proved unsuitable and, later, when modifications were made in the design of the accepted plane.

"The cost of this development program has undoubtedly been great," he said. "If we were simply to divide that cost by the number of aircraft produced, the cost per plane would indeed be excessive."

"But we have much more to show for our expenditure than a relatively small number of aircraft. We have created an industry. We have 3,000 skilled aircraft workers in Canada."

"We brought the British Air Ministry to Canada with an educational order of \$100,000. Today Canada is the Empire's aviation centre."

"When we broke out the former defence minister said, Canada had 'approximately 300 aircraft and another 100 under construction and well on the way toward completion.' A 'half century of these had since been completed.'

"With the knowledge we have of the presence in the Atlantic of raiding enemy vessels, who can doubt that if Canada had been defenceless the enemy would have attacked," he asked.

"The highest sense of defence efficiency is that the enemy shall be deterred from attacking at all. Canada had the benefit of that efficiency."

Referring to charges the army was improperly clad during the early months of the war, Mr. Mackenzie said the schedule for the transport of troops was determined months ago and has been carried through in time to time to the hour as laid down in advance, and that the force whose strength is measured in tens of thousands has reached their shores without the loss of a single man.

Then, turning to senior officers of the navy present, including Rear-Admiral the Duke of Devonshire, General MacKenzie said that "for this we give thanks to divine providence and to the might of the British navy."

Injured Child Goes To Doctor On Dog Sleigh

EDMONTON, Feb. 10.—While sleigh riding at the home of her grandparents, several miles east of here this week, the five-year-old daughter of Mr. and Mrs. Harry Beck ran a sleek through her elbow.

Only her mother and a police dog were home as Mrs. Beck tilted the dog in a sleigh and brought the child to the St. George's hospital, where the child was put in the outside of the sleigh and four on the inside.

IMPERIAL BANK'S USEFULNESS TO CANADIAN BUSINESS

For generations the explorers and surveyors led Westward. To-day they lead to the North.

Imperial Bank of Canada opened its first Western Office in Winnipeg in 1881, before the arrival of railways. It crossed the prairies with the settlers—westward to the mountains and on to the coast. It established branches wherever business developments required.

PUSHING BACK THE FRONTIER

To-day the Bank is pioneering still—pioneering in the North, pioneering with the miners, foresters and settlers of the North Country. For them it provides full banking service and a link with the financial centres. For business men everywhere it provides facilities for doing business where new wealth is being produced.

Canadian Troops Are Transferred to England Without Loss of Life

By J. F. SANDERSON
Canadian Press Staff Writer
LONDON, Feb. 10.—Major-General A. G. L. McNaughton, general officer commanding the Canadian Army Service Corps, declared today that the transfer of Canadian troops from Canada to Great Britain had been carried out without the loss of a single man and according to a schedule worked out months ago.

Airline flights by Sir William Coxon, Lord Mayor of London, and General MacKenzie, who had been in the Dominion since in Great Britain, General MacKenzie said that "the initial movements

Looking Them Over

By Jack Kelly

First In Five
Leads Count
Consols Next

SHIMMING off the chatter at bungalow headquarters Friday was the first time in five years the Edmonton consols has lost a draw through soft weather. Back in 1935 one draw was lost. Yesterday the 4:30 and 8:00 p.m. draws were literally washed out as water covered nearly all ice sheets. Draws at midnight, 2:00 a.m. and 6:00 a.m. kept the crowds narrowing down, and they are bound to fall behind today as the two-benching fraternity turn in for badly needed sleep and the weather continues ideal for a bumper crop of bananas.

The veteran skip, Lottimer of Lacombe, showed some of the boys a new wrinkle yesterday. Owing to ice conditions, rocks were doing Corriam all over the place. Irish took the handles off his ricks, turned them over and replaced the handles. Owing to the difference in the caps, rocks will fall away about half their weight against whatever turn is given them when they are reversed like this.

Skip Mah Bow, Suiy Sang, W. G. Sue and Tam Mah, the all-Chinese rink that has been a feature of thespiel, tendered the headquarters staff a full-course Chinese dinner last night at the Purple Lagoon. It was one of those dinners you hear about, but rarely get a chance to enjoy. None of those present will ever forget it or the fine hospitality of their hosts. Sid Peadar of Edmonton ranks as the skip who has completed in more tournaments in Edmonton than any one else. Out of the 53 who have been held, Sid has been a leading competitor in over 20.

Two veteran contenders of major power who were missed this year are George McLaughlin of Wetaskinwin and Dr. Anderson of the Royal.

Yesterday was one day when the leads and seconds were the men who tossed the deciding rocks. If they get them into any part of the house and could put any sort of a guard on them, the thirds and skips had no chance of doing very much about it. If you hit anything within five feet of the spot you were aiming at, you were a marvel that the club boys crowded around to watch. Sweeping was useless—and nobody was sorry.

15 Seek Consols Honors

SEVENTEEN of district winners for the northern Alberta playoffs in the British Consols competition closed Friday. The 15 rinks only signed up. Irish of Lacombe, Rose of Sedgewick and Grassman of Wetaskinwin are the only outside points entered. Manahan, Kemp and Hays and Dykes will represent the Royal Club, Glasgow, Gray and Hays are the hopes of the Edmonton Club, Ritchie and Hagler are carrying the colors of the Granville, Greenough is the lone representative of the Thistle, while Greer and McLean are in from the Alberta Avenue club.

Just when play will start remains a bit indefinite owing to the weather. It will get away however just as early next week as possible—all likelihood some time on Monday or Tuesday morning at the latest. The 15 competitors will be divided into three groups of five each. Each group will play round-robin series. The three winners then play another round-robin and the final winner stands ready to meet the southern Alberta champions here for the British Consols trophy and the right to represent Alberta in the McDonald Brier classic which will be held at Winnipeg this year.

Saskatchewan Huskies Drub Bears, 32-6 Score

UNIVERSITY of Saskatchewan's basketball quintet chalked up a decisive win over the Alberta Golden Bears Friday night by a 32 to 16 margin. Playing the first of a two-game series here for the coveted Rigby Trophy, emblematic of western inter-city basketball championship, the Huskies by virtue of their win, draw even with the Bears and the chances are that the game this afternoon will decide the championship.

GRADE FIVE EDGES OUT WIN AGAINST GRADS

Laura Strahan, scoring two baskets in the last minute of play, gave Grade Fives a two-point win against their older sisters the Grads in a game at McDougall gym last night. Grade Fives had a 20-point margin to start the game as Grads gave them that lead.

Grade Fives edged up the score in the last few minutes as Helen Neumann scored and Betty Blackie shot a three-point lead but in the last minute Strahan scored her two brilliant baskets for the winning margin.

Two important games the first scheduled tonight and the second on Monday, may or may not decide the Intermediate Hockey League final standings with Stan Mosher's University of Alberta Bears and a team in the line. However, the Bears are favored to win. The Bears are a real team of basketball, not possession of the lead and after the first quarter the Bears never really challenged them.

DEAN TURNS THUMBS DOWN ON \$10,000

BY CHARLES DUNKLEY
CHICAGO, Feb. 10.—Jerome Herman Dean definitely joined Chicago Cubs' holdout brigade.

"I'll starve to death before I'll pitch ball for \$10,000 a year," said Dean emphatically at the end of a futile two-hour conference with Phil K. Wrigley, owner of the National Baseball League team.

Dean was paid \$20,000 last season under two years of contract. Wrigley had demanded \$15,000 for 1940. Wrigley's offer was \$10,000. After two hours of discussion, Wrigley told newspapermen and photographers that he had no more to say.

"Your subject will be out in just a minute," he then started down a hall.

"Wait a minute," urged a reporter. "You're our subject."

"At least, a part of it."

"Not me," replied the retreating Wrigley. "He's back in the game business," he said.

"I'm not signed," the famous hurler boomed. "He offered me \$10,000. I wanted \$15,000. I'll starve to death before I sign for that. I'll go back to my farming place near Dallas. But there's no hard feelings between us. It's just business after all."

Pow, Robbins Star in Even-Stephen Tilt

DRUMHELLER, Alta., Feb. 10.—Drumheller Miners, minus Scoop Bentley, one of their forward stars, who suffered a fractured ankle in the recent game advanced into fifth position, one point behind the fourth-place Flyers by defeating the Edmonton club 2-1 before a large crowd of enthusiasts here last night.

Dick Roche and Ralph Smith were the goal-scoring for Drumheller, while Bobby Croasland tallied for Edmonton.

Flyers were without James "Duckey" Skinner, ahlty right-winger, who was injured in a recent game at Edmonton.

Despite the sticky ice, the teams set up a fast game in a contest that was featured by stellar net minding on the part of David Pow and Gordon Robbins.

Miners assumed the lead late in the first period when both Bentley and Stan Samson assisted Dick Roche in beating Robbins.

After taking Bentley's pass Samson circled the net and relayed to Roche who gave the Edmonton custodian a 1-0 lead.

Almost two thirds of the second period had been underway when Roche made the play for Ralph Smith to put Miners two goals up.

Smith picked the top corner of the net in beating Robbins. While Flyers had the advantage of man power, Robbins was serving the lone penalty of the period as Miners kept back-checking effectively.

Red Bentley drew a penalty early in the third period for slashing and again Miners checked scoring when he tried to shoot. Pow saved brilliantly on shots from the sticks of Wall and O'Keefe. While the game was being played, the crowd was cheering for the Miners.

Roche was almost in the clear when he hit only one goal and in the second game in the Midget Hockey League.

SCORE JUNIOR CLUBS OPEN PLAYOFF TILTS TONIGHT

Favored to win their first championship in junior hockey is the Edmonton Junior League all season, the Maple Leafs will meet Edmonton Athletic club in a game of the series at the arena tonight.

The clubs will meet in the second game of the series at the arena on Thursday, Feb. 12, and the third game is set for Thursday, Feb. 13.

If any more games are required—and drawn games will not count—Director Harris will announce further dates after Thursday's game.

There seems little doubt but that the series will go more than three games. With the exception of a 5-0 setback handed the E.A.C. when that club only had 10 men in uniform, the clubs have been winning by losing by a single goal, with Maple Leafs having the edge in games won and lost this year.

The winner of the Edmonton series will likely play Cadomin for the city championship.

No official challenge has as yet been filed, the club branch team is reported to be packed with hockey talent.

MUNDARE WINS Exclusive to Edmonton Bulletin

of Versailles

THE great Palace of Versailles, built by order of Louis XIV of France and paid for by the French Nation, has been the scene of many historic events. No expense was spared in its construction and decoration, in fact, historians tell us that the architects and artists were given a free hand to such an extent that the cost of the Palace actually impoverished the nation.

But even with all the wealth of France at his disposal, Louis XIV could not command the power that illuminates your home.

Godoy Lasts All Heats: Rocks Champ

By SID FEDER

MADISON SQUARE GARDEN, New York, Feb. 10.—"The South American way," going from the sublime to the ridiculous as portrayed by Arturo Godoy, gave Joe Louis the toughest battle of his heavyweight championship run last night, but wasn't good enough to take fisticuffs' highest crown from the Brown Bomber's kinky head. Louis weighed 213, Godoy 212.

For 15 rounds, the champion was at times befuddled, and sometimes lashed by the Chilean's jabbering, crouching, crawling tactics, but in the end he came on like a real lion, to take a split decision which Referee Arthur Donovan, who had been the third man in the ring over all the Bomber's battles, here insisted was the "hardest, toughest" one he had ever had.

TOOK ALL PUNCHES

Yet, although Joe won cleanly and clearly, as the crowd of 15,837 roared to the loudest, meaning much, the real hero of the affair was the South American, who took theucky "Donkey" Sunday punch in the time and still came on, leading five rounds against the ropes and in his trouble with long overhand lefts.

In the final analysis, it appeared the grating knucklouter since Jack Dempsey—and rated by many as the greatest of the big men for all time—was no longer the killer he was when Max Baer shot him to the floor. Herey Lewis in less than a round, in

HUSKIES EDGE OUT 4-3 WIN AT WINNIPEG

WINNIPEG, Feb. 10.—University of Saskatchewan Huskies opened the second half of the Halpenny intercollegiate hockey series with a 4-3 victory over University of Manitoba Blues last night. The teams meet again tonight.

The victory gave Huskies possession of first place in the series standings with seven points and the Blues have now earned a point in five games.

The Manitoba team did much improved team over the one that lost a two-game series in Saskatoon last month, and Huskies did not earn their margin until more than 35 minutes had been played when Muskie McMorris scored.

Macfarley with two, and George Bennett scored the winning goal.

Alan Hay, George Cassell and George Bennett scored for the Blues.

STREET-CRASH AND SMILE

BY GROUP LEADER E. HORNUNG

FROM POMPOUS we learn that Lester "Peanut" Brady has two classes going in the town and an additional two in the country. One of these that "Peanut" likes hitch-hiking, we wonder if he likes to the classes too.

Either Olson reports a very successful demonstration was put on by the local class on Jan. 14. Every body enjoyed the gymnastics even the one who did the "fumbling."

Elbi also mentions that the men's class is getting a real workout these days since the young male leader is in Edmonton hospital and has to do the double duty of taking both women's and men's classes.

We are very sorry to learn that Lucille is in hospital with a broken nose and complications suffered from a hockey puck during a game. We hope to see him back now and we hope to see him back in action with the P.T. class before long.

This is Leap Year and the men at Lough are planning a Valentine dance for Feb. 14 to give the young ladies a chance to look over. We expect to see a lot of muscles being shown and some chess cheating among the contestants.

At Fort Saskatchewan the men have started good commercials and show some real good form. Miller says it down perfectly, but unfortunately has a bad knee which has kept him from trying anything in between. Armand Lamoureux doesn't understand why the floor jumps up to meet him, especially as the floor has quite a few aivers in it.

Robert Perley can do anything in P.T. and even the car going to the Port and coming back on all four legs at one go.

VIC HIGH BUSY
Spineless! Vic reports that at the Victoria branch of the Victoria High is keeping him busy. Stan Harran, the muscle wonder, is very good on the high bar but does not appreciate having Vic flipping him. Apparently he forgot the lower up the high bar and rolled the floor with the nose.

Visit the King Edward centre if you want to see some good parallel bar work. Mat Umlauf is also going well at this place. Vic Wong knows how to do it and how.

DARING LADIES
Looking in at the Normal centre we are surprised at the women athletes we see there.

First of all we see Edna Herbert, a very young but unafraid lady who will tackle any stunt and she does it in perfect form and timing. Then there is "Bobbie" who will do a headstand or die, and she does the headstand very nicely, not to mention being willing to do anything else. Did you ever see 283 pounds coming off a table at 80 miles per hour? Well try to stop that pupil as a whole and see what happens.

From experience that some good goals can take place, but then some in the game. When a body gets a prize we can not complain.

Last Saturday the local central committee under the chairmanship of Mr. Caselman held a meeting, well supported by Jeff Harris. The meeting was well attended and we know that a lot of constructive work was done towards furthering the work of the city of Edmonton.

Midwest Slayers' class at Chatterbox is a very enjoyable class. The Slayers' class young leader is very busy these days. We hear he is very busy in his class, but we are not telling get look out.

DEADLY HAZARDS
In the men's class at the Normal the instructor is threatening to split the legs if some of the pupils do not quit the knees out.

A good attendance has been enjoyed and the latest record really put the instructor on the spot. Did you ever see 283 pounds coming off a table at 80 miles per hour? Well try to stop that pupil as a whole and see what happens.

Meehan Survives Rough Muscling to Beat Rumberg

SURVIVING a terrific battle among ringside chairs and jumping back in the ring in time to beat the referee's count of 20, Pat Meehan outmuscled the rowdy Ha Rumberg in the main event of Promoter Mike Cutcher's thrilling wrestling card at the Memorial Hall last night.

Meehan won two of the three falls in a battle to out-wrestle his opponent as Rumberg took the first tumble with numerous shoulder blows which Meehan anything but happy in the early wrestling.

But a rocking chair crash got Rumberg and he was pinned by Patrick in the second heat. A Meehan planned blow sent Rumberg into the chairs and before he could Meehan won the third fall.

THIS CURIOUS WORLD

T.M. REG. U.S. PAT. OFF.

IN SPITE OF MAN'S EXPLOITS IN THE AIR AND AT SEA, HE FEELS MOST AT HOME ON WHAT HE CALLS "TERRA FIRMA," OR FIRM EARTH. BUT OUR PLANET LACKS MUCH OF BEING THE FIRM FOUNDATION THAT IT APPEARS TO BE.

THE EARTH'S CRUST IS SO YIELDING THAT EVEN THE MOON'S ATTRACTION CAUSES IT TO BULGE IN TIDAL WAVES, AS DO THE WATERS OF THE SEA.

2-11

SINCE THE CHRISTIAN ERA, THERE HAVE OCCURRED MORE THAN 4,000 MAJOR EARTHQUAKES, CAUSING A DEATH TOLL OF A MILLION PERSONS.

UNDERGROUND EROSION IS AT WORK CONSTANTLY, AND WHOLE FARMS SOMETIMES CAVE IN OVERNIGHT.

VOLCANOES HURL OUT ASH AND LAVA, AND WHOLE CITIES ARE BURIED IN THE MUD! ABOUT 600 CRATERS EXIST TODAY THAT HAVE BEEN ACTIVE IN LATE HISTORICAL TIMES.

WATER AND WIND COMBINE THEIR UNCEASING FORCES TO TEAR DOWN SOIL AND ROCK FROM ONE PLACE ONLY TO BUILD IT UP AGAIN IN ANOTHER.

OSCAR, YOU ARE EXACTLY FORTY MINUTES LATE!

I COULDN'T HELP IT, TEACHER!

JUST WHAT SORT OF AN EXCUSE HAVE YOU TO OFFER THIS TIME?

I HAD TO PRESS MY OWN PANTS!

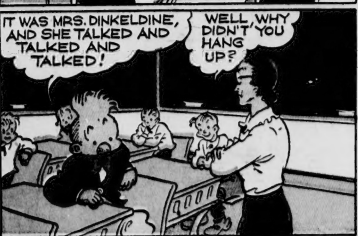

MOM WAS OUT, SO I HAD TO DO THE JOB MYSELF!

YES... GO ON!

AN' WHILE I WAS PRESSING THEM, THE PHONE RANG, SO I ANSWERED IT!

IT WAS MRS. DINKELDINE, AND SHE TALKED AND TALKED!

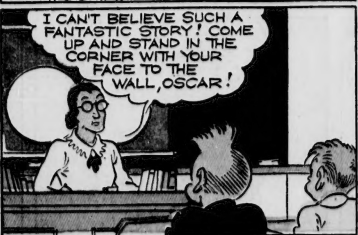

WELL WHY DIDN'T YOU HANG UP?

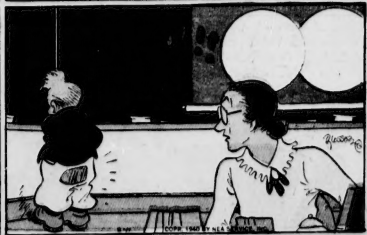

I DID... FINALLY! THEN THERE WAS A FIRE, AND I HAD TO STAY TO PUT IT OUT!

A LIKELY STORY INDEED! FIRST YOU PRESSED YOUR TROUSERS, THEN ANSWERED THE PHONE, AND FINALLY PUT OUT A FIRE! HMMM...

I CAN'T BELIEVE SUCH A FANTASTIC STORY! COME UP AND STAND IN THE CORNER WITH YOUR FACE TO THE WALL, OSCAR!
